

***Campus Security & Life Safety* Announces Secure Campus 2021 Awards Winners**

Dallas, Texas, March 30, 2021 – *Campus Security & Life Safety* magazine announced the 2021 winners of its Secure Campus Awards competition today. The awards honor outstanding campus security services and products.

As campuses are adjusting to new scenarios, security continues to be a nationwide concern. This fourth year of the Secure Campus Awards program received a record number of entries. The 1105 Media Infrastructure Solutions Group’s *Campus Security & Life Safety* and campuslifesecurity.com branded media, along with Campus Security & Life Safety Virtual Summits, offer important information to the campus security market. The Secure Campus Awards are another way this brand recognizes the products and services key to the market.

“We had a record-setting number of fantastic entries this year,” said Matt Jones, senior editor for *Campus Security & Life Safety*. “We’d like to thank all of the companies who submitted products, as well as our judges for taking the time to consider them as carefully as they did. The quantity and quality of our submissions—especially during such a difficult year—really show the recurring importance of campus security solutions and how they’ve adapted to meet new challenges.”

An independent panel of judges from the security industry selected the top entries in the 2021 categories and named them winners using criteria including Features, Innovation, User Friendliness, Interoperability, Quality, Design, Market Opportunity and Impact in the Security Industry, Technical Advances, and Scalability. The winning entries are:
